Sound Surveillance™

MSP-1 Microphone Mute Switch with LED Status Indicator

Description

The MSP-1 is a flush mount, stainless steel, mute switch with an LED status indicator for use with ETS SM1 series microphones. The MSP-1 is typically used in interview or interrogation rooms when it is required that the microphone be turned off on occasion. The MSP-1 can be located anywhere along the cable run between the microphone and head end equipment.

Connects directly to our switcher / mixer / amplifiers or use one of our many interface products to make fast and clean connections to DVRs or remote monitoring equipment.

Includes:

- MSP-1 flush mount mute switch
- Mounting screws.
- Warning label.
- Installation instructions.

Wiring requirements:

2 conductor shielded (with drain wire) 22 gauge stranded. Max cable length 1500'

Caution

It is the responsibility of the installation company and end user to install this audio surveillance equipment in compliance with state and federal privacy laws. If you are unfamiliar with these laws, consult a qualified attorney.
