## HSA-6 Economical 6x4 30 Watt Amplified Horn Speaker

### Description

*The HSA-6 is a low cost 6x4 inch indoor / outdoor horn speaker with an integrated 30Watt power amplifier. It operates on 12Vdc (10 Watts) or 24Vdc (30 Watts) regulated power and comes with 6' leads for power and audio input. The audio input is a male 3.5mm stereo plug designed to plug directly into an IP camera. The volume of the speaker can be adjusted via a control on the bottom of the unit with a small screw driver.*

### Includes

- HSA-6 Amplified horn speaker
- Instructions

### Options

- HSA-6B Connection interface box with internal terminal block connections mounted to rear of speaker instead of flying leads.
- 15DC800 Power supply for 10W operation
